# About Dr. Maiysha

Dr. Maiysha Clairborne is an Integrative Physician, Master Coach & Trainer of Neurolinguistic Programming (NLP), Hypnosis & Time Line Therapy®, & founder of the Mind Re-Mapping Co.

Through her trainings, Dr. Clairborne helps individuals and organizations achieve mindset & communication mastery by teaching them how to eliminate negative thinking, faulty beliefs, and ineffective behaviors so that they can be trauma responsive in their communications & interactions with others.

Dr. Maiysha's specialty in trauma-informed communication is teaching people the power of words, and how our unconscious thoughts and beliefs have an impact on the reality we create. Her trainings combine the mastery of emotional and communication intelligence, teaching leaders that by mastering their language (both internal and external) they can not only be conscious but also responsible for the impact of their words, actions, and behaviors. This ultimately helps them to communicate in a way that builds bridges, creating new connections and outcomes that positively impact the people, community & organizations they serve.

Dr. Maiysha enjoys working in Corporations, Medical Systems, & Educational Institutions, bringing conversations and skills of trauma responsiveness, emotional intelligence, and growth mindset culture in these spaces. She obtained her BA in Psychology at Emory University, and her doctorate of medicine at Morehouse School of Medicine. In addition to gracing the TEDx Asheville Stage in 2022, she has delivered trainings in arenas such as the International Conference on Physician Health, Women in Medicine Conference, and has served as a faculty coach for the ACGME's Equity Matters Pilot DEI Certification Program. She is the Author of the book *The Wellness Blueprint*, co-author of the book *Conscious Anti-Racism*, and host of the podcast *The Black Mind Garden*.
